Science: Year 1 – Animals, including Humans

Enquiry Question: How are animals (including humans) the same or different?

Skills

- I can observe animals and identify their features.
- I can identify and group animals.
- I can sort animals by what they eat: herbivore, carnivore or omnivore.
- I can identify body parts and the senses.
- I can make a prediction, record results and say what I found out in an investigation.

Key Facts

Animals can be put into different groups.

Animal groups include: fish, birds, mammals, reptiles and amphibians.

Herbivores eat plants.

Carnivores eat other animals.

Omnivores eat plants and animals.

Humans have five senses: sight, hearing, smell, taste and touch.
