Science: Year 2 – Animals, including Humans

Enquiry Question: What do animals, including humans, need to grow, survive and stay healthy?

Skills

- I can observe animals closely.
- I can compare animals and their young.
- I can order animal life cycles.
- I can investigate how exercise affects my heart rate.
- I can use information to make healthy choices.

Key Facts

Animals have young that grow into adults.

Animals need food, water and air to survive.

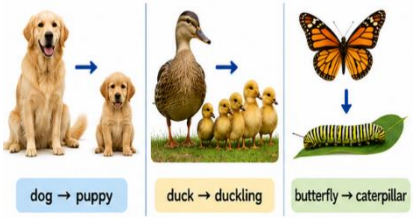

Different animals have different life cycles.

Exercise helps us stay healthy.

A balanced diet and good hygiene help keep us healthy.

Key Ideas

Animals and their young

What animals need to survive

Staying healthy

Exercise

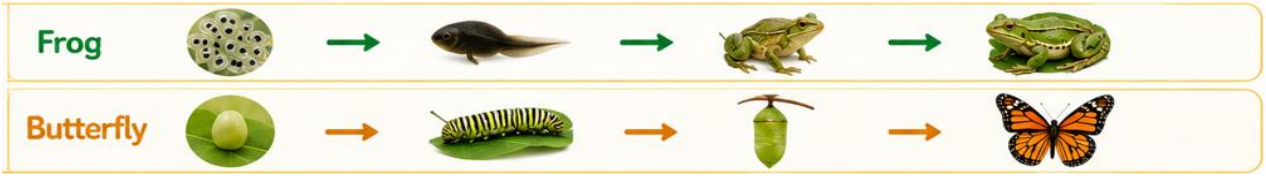

Healthy Food

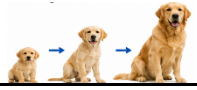

Good hygiene

Animal Lifecycle

Key Vocabulary

Hygiene 	How an animal keeps itself clean and healthy.	**Reproduction** 	How an animal produces offspring.
Offspring 	An animal's young.	**Exercise** 	An activity that makes your heart beat faster.
Survival 	What an animal needs to stay alive.	**Balanced diet** 	Eating different types of food to stay healthy.
Growth 	When an animal gets bigger and older.
